Tired of getting stuck in your own driveway? Are your clients at risk every time there is snow or ice on the sidewalks, stairs, or access ramps in front of your business? Sick of using your snow shovel? Heatizon Systems Hott-Wire snow melt technology is the solution.

CONVENIENCE

Retire your snow shovel and relax in the mornings by installing a driveway heating system in your home or business. Our radiant snow melting technology is designed to conveniently and automatically eliminate snow and ice build up day and night, so you don't have to.

WORRY FREE RELIABILITY

The entire Heatizon system is solid state, has no moving parts to wear out, and has nothing that requires routine maintenance. Hott-Wire heating element is backed by a 12 year limited warranty.

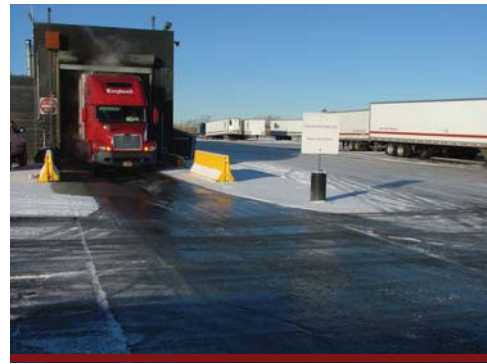

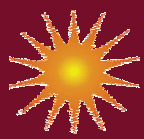

VALUE

Heating your driveway with a Heatizon System adds value to your home or building, and increases the life of your driveway by preventing chemicals, shovels, and snow plows from damaging its surface. In addition your investment will set your mind at ease knowing your customers, employees, friends and family can avoid injuries sustained from slipping on icy driveways and walkways. An automated snow melting system also eliminates shoveling or plowing, creating free time to the owner... yielding yet another very nice dividend!

COST EFFECTIVE

Our snow melting systems are designed to operate only when necessary and can be programmed to turn on automatically when snow is falling using advanced temperature and snow sensing controls. This feature maximizes the convenience of automatic snow melting while minimizing the impact to your budget.
