

New Low profile Heatizon ZMesh Radiant Heat  
Available in Canada at Power Plant Supply Co  
[www.powerradiantfloorheat.com](http://www.powerradiantfloorheat.com)

Heatizon Electrical heating Systems is the industry leader in radiant floor heating for residential and commercial buildings. Low voltage Radiant Heat products are a speciality at Heatizon.

**Features:**

- 25 Year Warranty
- Can be nailed or stapled through
- 100% efficient
- Thermostatically Controlled
- Recyclable Materials
- Made in the United States
- Promotes Indoor Air Quality

Heatizon Systems ZMesh is a durable bright bronze woven metal fabric screen that comes in 9 inch and 12 inch widths. ZMesh is designed to go on concrete or wood sub-floor, or a wood roof. The heat density of Mesh heating element is dependent on the spacing between adjacent runs of the element and the length of the element.

Computer technology control points safely monitor your floor warming system day and night. Floor Warming with ZMesh is perfect for cold surfaces such as tile, hardwood, vinyl, marble, slate, stone and any other non conductive floor covering. Heatizon is the name other companies try to match.

Heatizon Systems ZMesh is a durable bright bronze woven metal fabric screen that comes in 12" or 9" widths. ZMesh fits applications for interior floor and space heating, as well as exterior ice dam prevention and roof and deck de-icing. It can also be nailed and stapled through into non conductive materials. The heat density of ZMesh is dependent on the spacing between adjacent runs and the length of element delivering from 5 to 12 watts per lineal foot.

ZMesh can be attached to a concrete floor by using tile mastic to secure it. Flooring such as carpet, tile, wood, laminate, engineered and other floors can be heated with ZMesh

With the square footage of your room and material delivery requirements are scheduled, Power Plant Supply Co make sure all materials including M321RS programmable In-floor Sensing Thermostat, Transformer, Control Box, ZMesh elements and all material required are tagged and bundled for the Job. Relax! No running around for items that are missed. From rough in to start up your materials are ready when you are.
